The Covenant consists of the commitment of the signatory cities to go beyond the EU objectives for reducing CO_2 emissions through energy efficiency measures, actions related to renewable energy sources and clean transport.

The European Commission recognises the entities acting as Covenant Supporters as its main allies in conveying the message and increasing the impact of the Covenant. These Covenant Supporters are defined as those networks of local authorities that leverage their lobbying, communication and networking activities to promote the Covenant of Mayors initiative and support the commitments of its signatories.

National Chamber has among its main purposes to represent and to defend the interests of the local authorities at national and European level, and to foster exchange of experiences and best practices between its members.
