

# FEEDBACK REPORT

## *Boumerdès (DZ)*

### Foreword

The present document is the feedback report from the Covenant of Mayors (CoM) Technical Helpdesk after having completed the analysis of your Sustainable Energy Action Plan (SEAP).

The analysis is essentially focusing on the compliance of the SEAP with the Covenant formal commitments and principles as well as on the evaluation of the completeness and consistency of the data inserted in the SEAP template. The latter is mainly based on a computer-assisted analysis performed on the data you inserted in the online SEAP template. The selection and definition of adequate actions aiming at achieving your emissions reduction objective are entirely left to your responsibility as they need to be tailor-made on your territorial circumstances.

The feedback report serves the purpose of informing the signatory on whether its SEAP fulfils the following criteria:

1. The SEAP must be approved by an official body (in principle the municipal council).
2. The SEAP must clearly specify what is your overall CO<sub>2</sub> reduction objective by 2020 (20% as a minimum).
3. The results of the Baseline Emission Inventory (BEI) must be provided and must cover the key sectors of activity.
4. The SEAP must include a set of actions in the key sectors of activity.
5. The SEAP template must be correctly filled-in.
6. The data inserted in the SEAP template must be coherent and complete.

The present report also provides observations and suggestions for improvement, which we recommend that you take into consideration as much as possible. Nevertheless, in some instances our remarks might just point out peculiarities which do not need to be addressed because they find their explanation to be in the particular circumstances occurring within your territory.

## Overall evaluation

We are pleased to announce that your Sustainable Energy Action Plan meets the six criteria described above and therefore it has been accepted. We wish to congratulate you for this achievement! This has been made publicly visible on the Covenant of Mayors website.

In the next section you will find some observations regarding your SEAP template and some recommendations for improvement. We kindly ask you to address them and, if relevant, carry out the suggested modifications. Furthermore, we have noticed that on the on-line SEAP template you have only reported 3 actions whether on your original SEAP document there are many interesting priorities actions with the relevant cost estimates and energy consumption and CO2 emissions estimates. We suggest you to elaborate this data and include them as actions under the relevant sub-sector on the on-line SEAP template as well.

The Covenant of Mayors Technical Helpdesk would like to thank you once again for the time spent and the efforts that you have devoted to producing your Sustainable Energy Action Plan.

With best wishes and kindest regards,

*The Covenant of Mayors Technical Helpdesk*

Ispra, 15<sup>th</sup> July 2016

## Detailed comments on your SEAP template

### CO2 Baseline Emissions Inventory (BEI) 2014

1. No energy data are reported for the MUNICIPAL BUILDINGS, EQUIPMENT/FACILITIES, TERTIARY (NON MUNICIPAL) BUILDINGS, EQUIPMENT/FACILITIES and RESIDENTIAL BUILDINGS sub-sector. It is recommended that the local authority takes action in its own buildings and facilities to set a good example. Also since the Tertiary buildings and the Residential buildings sector are often highly emitting in the urban environment and should be two of the key targets of the SEAP, we strongly suggest to monitor separately their energy consumption, in order to then be able to measure the impact of the actions taken. If these data are available, please insert them. Otherwise, we would recommend you to try to obtain this information in order to be able to provide it in next MEI.

### SEAP

2. You have not reported any estimates on Energy savings, Renewable energy production, CO2 reduction for any of your planned action. We would be grateful if you could insert these estimates whenever these data become available to you.

3. A significant number of the actions/measures reported in your template do not contain relevant cost information. We strongly recommend you to fill-in these fields to better plan the implementation of your SEAP.

4. The CO2 REDUCTION ESTIMATION IN 2020 column has not been filled-in for the TRANSPORT sector. We strongly recommend you to provide this information.

5. The ESTIMATED ENERGY SAVINGS PER SECTOR IN 2020 (MWh) column has not been filled-in for the TRANSPORT sector. We strongly recommend you to provide this information.

6. According to your template, no actions have been planned for one or more key Covenant sectors (please see the list below). The local authority is strongly recommended to take action to reduce their associated emissions, therefore we invite you to report the measures you have planned in these sectors:

TERTIARY\_BUILDINGS\_EQUIPMENT\_FACILITIES

RESIDENTIAL\_BUILDINGS

## TRANSPORT

-----

*The Covenant of Mayors Technical Helpdesk is jointly managed by the Institute for Energy and Transport and the Institute for Environment and Sustainability of the European Commission Joint Research Centre and the Covenant of Mayors Office in Brussels.*

\*\*\*

*Please note that this document and the consequent possible SEAP acceptance are by no means related to the Strategic Environmental Assessment provisions set in the Directive 2001/42/EC of the European Parliament and of the Council of 27 June 2001 on the assessment of the effects of certain plans and programs on the environment or to any other possible assessment: this feedback is to be intended only for the purposes set within the context of the Covenant of Mayor initiative.*

\*\*\*

*The output of this report is based on an automatic analysis of the data provided in the SEAP template and does not imply any approval of its content by the European Commission. The responsibility of the measures and figures reported in the SEAP document and template remains with its authors.*
