

Sustainable Energy Action Plan (SEAP) template

This is a working version for Covenant signatories to help in data collection. However the on-line SEAP template available in the Signatories' Corner (password restricted area) at: <http://members.eumayors.eu/> is the only REQUIRED template that all the signatories have to fill in at the same time when submitting the SEAP in their own (national) language.

OVERALL STRATEGY

1) Overall CO2 emission reduction target

(%) by **2020**

Please tick the corresponding box:

- Absolute reduction
 Per capita reduction

2) Long-term vision of your local authority (please include priority areas of action, main trends and challenges)
